

First insert the SIM card into the tablet and then make the APN settings below.

1. On the Home screen, tap Settings ①.

2. Tap More in the Wireless & networks menu ①, and then tap Mobile network ②.

3. Make sure Mobile data is turned on ① and then tap Access Point Names ②.

4. In the APNs window, tap the Menu button ① and then tap New APN ②.

5. In Edit access point, enter the settings below and then tap the Save button ①.

Name	asahi-net
APN	lte.mobac.net
Username	d@w.asahinet.jp
Password	0000 (four zeros)
Authentication Type	PAP or CHAP

* Only the above settings are required – there is no need to enter any other settings.

6. Select the access point saved in 5 ①, then tap the Home button ②.

If 4G appears in the signal bar then the settings are complete.
