 Open Hours 10 a.m-5 p.m., Monday to Friday, excluding national holidays Phone: 0120-577-135

6. Other Precautions

<Provision of the service>

- This service is available to customers who are subscribed to the fiber-optic line provided by NTT East/West (hereinafter referred to as NTT). Those who are subscribed to a Hikari Collaboration Model-based fiber-optic line (such as docomo Hikari by NTT docomo) cannot apply for Asahi Net FTTH with FLET'S. Also, those who are subscribed to FLET'S Hikari My Town in the NTT west area cannot apply for the Asahi Net FTTH with FLET'S Course.
- If an Asahi Net member changes their course to this course, the previous course status cannot be restored.

<Installation work>

- You will be contacted by an NTT representative later for the fiber-optic line installation. An NTT representative will contact you later even if you already have a fiber-optic line installed.

<Charges>

- If you terminate your membership or change your course during the campaign/discount period (including due to moving), you are required to pay the regular monthly charge and any other usage-based charges for that month. Please note that any applicable campaigns and discounts will end too.
- If the FLET'S Hikari fiber-optic line is canceled due to change in the subscriber's name or moving, any applicable Asahi Net campaigns and discounts will end.
- If you are an Asahi Net member and you have changed to this course, the monthly charge for the previous course will be billed on the month you made the change.

<Cancellation>

- To cancel Asahi Net FTTH with FLET'S, you need to contact both NTT and Asahi Net, Inc.
- If Asahi Net is unable to confirm your intention to continue to use our service (such as when you cancel the FLET'S Hikari fiber-optic line), the Asahi Net FTTH with FLET'S service will be canceled too and your membership will be terminated.

<Notes for FLET'S Hikari Cross line users>

- You can connect to the internet through IPv6 (IPoE) and IPv4 over IPv6 (DS-Lite) connection. A connection setup information which is automatically sent by Asahi Net will set up your connection. You do not need to do the setup work. When your fiber-optic line is installed, connect the FLET'S Hikari Cross-supported router to the fiber-optic line, turn the router's power on, and wait until you receive the setup information.
 The following page also shows you the steps to set up your connection.
 Setup Guide: FLET'S Hikari Cross (https://asahi-net.jp/en/support/guide/flets_cross/)
- IP-Phone-C option service is not available in FLET'S Hikari Cross line due to its specifications.

<IPv6 Connection Feature>

- The IPv6 Connection Feature is offered as a standard feature of Asahi Net FTTH with FLET'S. To start using the IPv6 Connection Feature, a customer information (user ID) issued by NTT is required. We ask your authorization to allow Asahi Net to share your personal information (user identification) with NTT in order to provide the IPv6 Connection Feature.
- For Asahi Net to provide the IPv6 Connection Feature, NTT's FLET'S v6 Option is required. If you have not yet subscribed to NTT's FLET'S v6 Option, we ask your authorization to allow Asahi Net to apply for the FLET'S v6 Option on your behalf.
- To subscribe to the Asahi Net FTTH with FLET'S Cross Course, the IPv6 Connection Feature is required. Once Asahi Net receives your application, the steps to start using the IPv6 Connection Feature will be processed.
